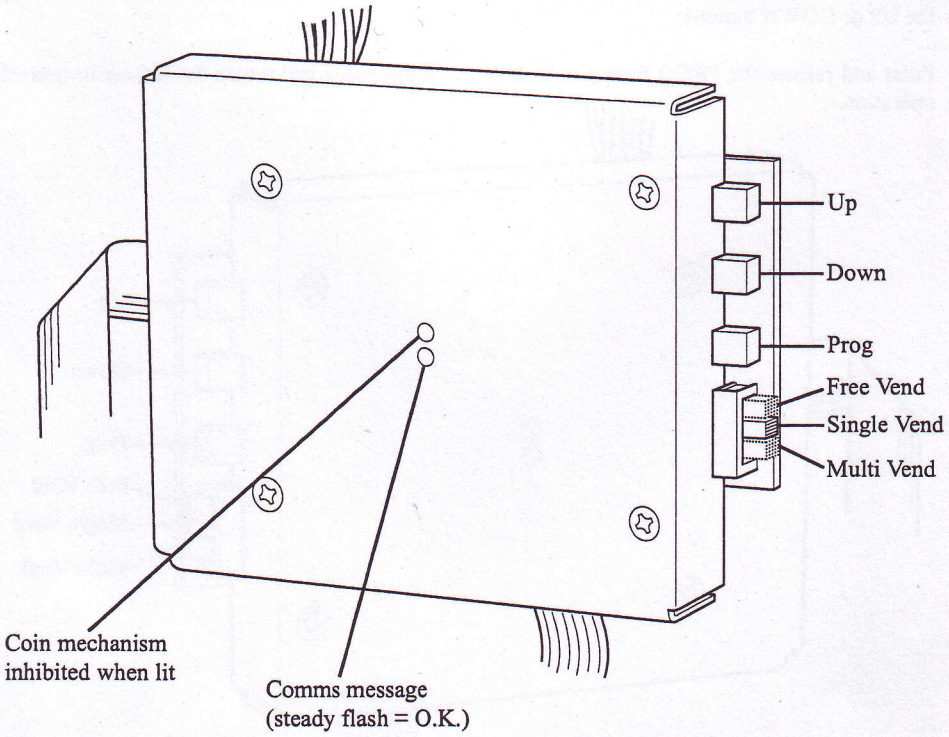
SETTING UP

PRICE SETTING

1. Power up the machine.
   Price 00.20 (or similar) will be shown on the validator display panel.

2. Press and release the PROG button.
   Price = 00.20 will be shown on the validator display panel. Note that the = symbol becomes illuminated.

3. Press the UP or DOWN button, as required, to amend the vend price.

4. Press and release the PROG button to set the vend price and return the brewer to normal operation.


5. Set the required token value (see 'Setting Token Value').
