SERIAL NUMBERS AFFECTED		ISSUED BY **Wittenborg Bilston**	
SUBJECT **Universal Adaptor for Printer Kits**		ISSUED FOR (X):	

ISSUED FOR (X):	
Action	
Information	**X**

All printers used on Mariner, 5300, Meridian, Sirocco and Mistral machines are now supplied with an adaptor. The adaptor enables the printer also to be used on 5300 and Mariner machines equipped with the latest EVA-DTS (European Vending Association Data Transfer Standard) data output plug.

All the printer kits listed below now include the adaptor to enable the printer to be connected to either a 9 pin "D-type" plug (EVA-DTS standard) or a 9 pin "D-type" socket (previous standard). This will enable the printer to be used with either connector.

The updated kits are as follows:

4951.15006	**Printer Kit – English**
4951.15011	**Printer Kit – German**
4951.15014	**Printer Kit – French**

The adaptor is available as a separate item to enable earlier printers to be used on machines with the new EVA-DTS connector.

4990.00413	**Adaptor 9pin D-type male/male**
